

Georgia Long-Term Care Partnership

Connecting Georgians to Long-Term Care Insurance

***Providing
you choices
today...***

***Protecting
your assets
for the future.***

Georgia Long-Term Care Partnership is a collaboration between the Georgia Department of Community Health, the Office of the Commissioner of Insurance and the Department of Human Services, Division of Aging Services.

Take Control Now. Reduce Your Risk. Do Not Let Long-Term Care Needs Grab You by Surprise

People are relying on long-term care (LTC) more and more. Medicare and most health insurance policies do not pay for LTC. Without planning you may lose your independence, flexibility, quality of care and financial security. Life does not come with guarantees, but you can plan ahead for future LTC needs. We can help you understand your options, know the costs, and develop your personal plan for creating the LTC picture that is right for you.

What is Long-Term Care Insurance?

LTC insurance is private insurance coverage designed to assist people with the costs of LTC that might result from a chronic disease, serious accident, sudden illness, or cognitive impairment. LTC services help individuals continue to perform a variety of day-to-day activities from money management, laundry and cooking to more personal functions such as bathing, dressing, grooming and eating. Paid LTC is available through home care agencies, assisted living facilities, nursing homes and adult day care centers.

Explore Partnership Policies for Financing Your Future Long-Term Care
