

ANNOUNCEMENT

The Request for Information (RFI) was a method for soliciting information from vendors who have knowledge or information about the service for the Department's project.

The RFI is not intended for a contract award but is designed to allow for the receipt of information that will then be used to determine if a Request for Quote (RFQ) or a Request for Proposal (RFP) solicitation is appropriate.

Please continue to periodically check the website at www.procurement.state.ga.us or www.dch.state.ga.us for future procurements.
