

FYE 2015
GENERAL INSTRUCTIONS TO COST REPORT
HOSPITAL BASED NF/ICF-MR

This cost report form should be utilized by any NF/ICF-MR to which costs are allocated from a hospital or other facility through a Medicare cost report cost finding on Medicare Worksheet B. If no costs are allocated to the NF/ICF-MR, the Medicaid cost report form for free-standing nursing home facilities should be used. Only those facilities that qualify as a hospital-based facility will be grouped as such. (See Policies and Procedures for Nursing Facility Services manual, Section 1002.1g.)

All financial information included in the cost report must be prepared in accordance with generally accepted accounting principles; however, where the Centers for Medicare & Medicaid Services Manual (CMS-15) differs from GAAP, CMS-15 will prevail. The cost report must be filed using the accrual basis of accounting covering the accounting period from July 1, 2014, to June 30, 2015. Where the provider's Medicare fiscal year ending dates are between January and April 30, 2015, cost reports must be submitted to the Department on or before September 30, 2015. Where the provider's Medicare fiscal year ending dates are between May and June 30, 2015, cost reports must be submitted to the Department on or before November 30, 2015. Where the provider's Medicare fiscal year ending dates are between July and December 31, 2014, cost reports must be submitted to the Department on or before September 30, 2015; the financial information to be included on the Medicaid cost report must be taken in total from the provider's most recent Medicare cost report that precedes June 30, 2015, (i.e., if the provider's year end for Medicare purposes is September 30th, the September 30, 2014 year end must be utilized in its entirety for the June 30, 2015 filing, not the September 30, 2015 year end or an allocation of two Medicare cost reports).

A copy of the completed electronic cost report and questionnaire along with the electronic copy of the recently filed applicable Medicare cost report and any final settled Medicare cost report(s) whose adjustments are flowed through this Medicaid cost report, including all schedules and attachments, must be submitted by September 30, 2015, or November 30, 2015, as described above. The Policies and Procedures for Nursing Facility Services manual indicates that if the cost reports are not filed by September 30, or November 30, the Department shall have the option of either terminating the provider agreement upon thirty (30) days written notice or imposing a penalty of \$50 per day for the first thirty (30) days and a penalty of \$100 per day for each day thereafter until an acceptable cost report is received by the Department. The only condition in which this penalty will not be imposed is if written approval for an extension is obtained from the Program Manager of Nursing Home Reimbursement Services for the Department of Community Health prior to the September 30 or November 30 deadline. Since incomplete reports are subject to the same penalty as late filings, all facilities are encouraged to file by September 1, 2015, or November 1, 2015, to insure that no penalty is imposed. Copies of the various supporting documents required by certain schedules should be attached to both copies of the cost report. The supporting documents should be clearly labeled as to the schedule to which they refer.

Approval for extensions beyond the November 30, 2015, due date will be granted only if the provider's operations are "significantly adversely affected" because of circumstances beyond the provider's control (i.e. a flood or fire that causes the provider to halt operations). Each provider must submit a written request specifying the hospital-based facility and the reason for the extension.

A cost report must be prepared by each owner of a nursing facility if the facility was sold during the current period. Each owner should complete the cost report covering the period of their ownership of the nursing facility.

All cost reports (Medicaid, Medicare, and Final Settled Medicare) should be emailed as an attachment to nhcostreport@dch.ga.gov.

We encourage a careful review of all the instructions before starting to prepare cost report.

SCHEDULE CP

Schedule CP is the certification required to be signed by the owner, corporate officer or administrator, as indicated on the schedule. Unsigned reports will not be accepted. The passcode issued by the Department must be entered to serve as the electronic signature. If you do not have a passcode, please send an email to nhpassword@dch.ga.gov to request a passcode for your facility. Further, a place is provided for the preparer of the cost report (if not an employee of the provider) to be identified. Where applicable, please provide the preparer's complete address and phone number.

SCHEDULE A

Part I - Inpatient Days - Total inpatient days by month are to be reported by form of payment (Medicare, Medicaid (FFS), Medicaid (CMO), or Private and Other) and by whether or not the patient is onsite or out on a leave/hospital stay (Hospital/Leave days for Medicaid recipients should only include those days reimbursable under the Medicaid Program). A patient day is the care of one patient during the period between the census-taking hour of two successive days. When a patient is admitted and discharged on the same day, this must be counted as one inpatient day. Column 1 should contain only Medicare recipient patient days. Column 2 should contain any Private pay & Other onsite patient days. Column 3 should contain any Private pay and Other Hospital/Leave patient days. Column 4 should contain any Medicaid (FFS) onsite patient days. Column 5 should contain any Medicaid (CMO) onsite patient days. Column 6 should contain any Medicaid Hospital/Leave days. Column 6 should be the total of columns 1, 2, and 4. Column 7 should be the total of columns 1, 2, 4 & 5. Column 8 should be totals of columns 3 & 6 across. Line 13, column 8 should also equal the sum of column 8, lines 1-12 for the applicable period. Please Note: Hospice days are considered private pay days. These days should be listed in column 2. See our Policies and Procedures manual for further information..

Part II - Bed Capacity - Total beds, as certified by the Standards and Licensure Unit of the Department of Human Resources, are to be listed in the spaces provided. Temporary changes in bed availability because of alterations, painting, etc., do not affect bed capacity. Distinct part facilities must provide bed capacity information separately for NF and ICF-MR. Bed days available are determined by multiplying the number of beds available in the reporting period by the number of days in the period. Take into account increases or decreases in the number of beds available and the number days elapsed since the increase or decrease. As an example, if the number of certified beds increased from 50 to 100 as of September of the reporting period the calculation would be as follows:

50 beds for 92 days = 4,600 bed days available
100 beds for 273 days = 27,300 bed days available
365 days = 31,900 bed days available
during the period

Part III - Percent Occupancy - The percent occupancy should be computed for each category in which bed capacity information has been provided.

Part IV - Minimum Per Diem Semi-Private Rates as of Last Day of Reporting Period - The minimum per diem semi-private rates must include only those charges for services comparable to those included in the Medicaid patient rate. Refer to Section 901 of the policies and procedures manual for further information on charges includable in the Medicaid patient rate.

SCHEDULE A-1

Schedule A-1 requires bed capacity information for the hospital excluding the NF or ICF-MR facility. Refer to instructions to Schedule A for further guidance in completing this information.

SCHEDULE B

Sub-schedules B-1, Supplemental Schedule to Schedule B-2, B-2, and B-3 provide the means to accumulate the information required for Schedule B. Specific cross references to the pertinent sub-schedule and Medicare cost report are included in the schedule B format. All financial information listed must be determined under generally accepted accounting principles.

The basic format of the sub-schedules follows the standard chart of accounts detailed in the DCH's Uniform Chart of Accounts manual. As stated therein, all providers participating in the Medicaid Program must utilize this standard chart of accounts.

SCHEDULE B-1

Routine Services Revenues (Lines 1-14) and Ancillary Revenues (Lines 15-28) are self-explanatory. Line 14 should be equal to Schedule B, Line 1 and Line 28, Column 1 should be equal to Schedule B, Line 2. Charges refer to the regular rates established by the provider for services rendered to both beneficiaries and to paying patients. Charges should be related consistently to the cost of the services and uniformly applied to all patients whether inpatient or outpatient. All patients' charges used in the development of apportionment ratios should be recorded at the gross value; i.e., charges before the application of allowances and discounts deductions. (See CMS-15, Section 2206.1 for information on accrual of charges and Section 2204.1 for hospital-based physicians charges.) Please note that several new accounts have been added as ancillary revenue categories.

SCHEDULE B-1A

The purpose of this schedule is to calculate the Ancillary expense adjustments necessary to properly determine the Medicaid program's portion of ancillary services provided. Please make sure that costs and charges are properly matched in the appropriate columns of Schedule B-1A.

Line 1: The sum of the individual line items from Schedule B-2, Column 5, for each particular ancillary service should be entered here. (You may need to obtain this detail directly from the Medicare cost report.) **If the amounts on this line do not agree with the appropriate amounts on Schedule B-2, submit a supplementary schedule reconciling the two amounts.**

Line 2: Report the amount of any Schedule B-4 adjustments to Ancillary expenses for each particular type of ancillary service.

Line 3: This is the difference between Line 1 and Line 2. For the Therapy Room Overhead columns, these numbers should be the amounts calculated on Schedule B-5, line 12a.

Line 4: Total charges from Schedule B-1, Column 1, for each particular ancillary service should be reported on this line. (You may need to obtain this detail directly from the Medicare cost report.) This should be nursing home charges only. Total Charges for the Therapy Room Overhead columns should be the sum of the amounts entered for Physical, Speech, and Occupational Therapy.

Line 5: This is Line 3 divided by Line 4. The result is the cost to charges ratio. Include at least 4 digits to the right of the decimal point.

Line 6: Report Medicaid charges for each particular ancillary service from Schedule B-1, Column 2, for each particular type of ancillary service. Medicaid Charge should be recorded for Medicare Part B billable ancillary services for Medicaid eligible residents who are not covered by Medicare Part B or Private Insurance. (Medicaid charges must be accurately tracked. Estimates are not allowable). Medicaid Charges for the Therapy Room Overhead columns should be the sum of the amounts entered for Physical, Speech, and Occupational Therapy.

Line 7: Medicaid cost is calculated by multiplying Lines 5 and 6 for each particular type of ancillary service.

Line 8: Total patient days are originally reported on schedule A, Column 8, Line 13. Total patient days (the same number) should be reported for each type of ancillary service.

Line 9: Medicaid patient days are originally reported on Schedule A, Columns 4 and 5, Line 13. The number to report on Line 9 is the sum of Columns 4 and 5, and Line 13. Total Medicaid patient days (the same number) should be reported for each type of ancillary service.

Line 10: Maximum reimbursable costs equal Medicaid cost (Line 7) times the ratio of total patient days to Medicaid patient days (Line 8 divided by Line 9).

Line 11: Compare the amounts on Lines 3 and 10. Enter the larger amount here.

Line 12: The amount of the Schedule B-4 adjustment is the difference between maximum reimbursable costs (Line 10) and the amount on Line 11. These amounts should be reported on schedule B-4 and adjusted to reimbursable costs on Schedule B-2, Column 6.

SPECIAL NOTE: The costs of prescription drugs, Non-Emergency Transportation, Radiology, and Laboratory are not reimbursable under the Nursing Home Program. (See Chapter 900 of Policies and Procedures.) Costs and revenues related to these should not be included on Schedule B-1A. The costs should be removed using line 5 of Schedule B-4.

SUPPLEMENTAL SCHEDULE TO SCHEDULE B-2

Column 1 - The amounts recorded direct to the NF or ICF-MR on the Medicare cost report, CMS Form 2552, Worksheet A, column 3 should be entered in this column. These direct costs should be properly classified among cost centers in accordance with the DCH's Chart of Accounts manual.

Column 2 - The amounts that have been reclassified to or from the NF or ICF-MR on Medicare Worksheet A-6 should be entered in this column.

Column 3 - The amounts that have been added to or subtracted from the NF or ICF-MR on the Medicare cost report Worksheet A-8 should be entered in this column.

Column 4 - The amounts that have been allocated to the NF or ICF-MR in Medicare cost report Worksheet B, Part 1, should be entered in this column.

Column 5 - Column 5 is completed by adding or subtracting the amounts in each column to the amounts in column 1.

SCHEDULE B-2

(Revised July 2013)

The purpose of Schedule B-2 is to accumulate direct and indirect costs applicable to the hospital-based NF or ICF-MR in the format of Schedule B. The hospital's Medicare cost report is utilized to the extent possible. Please complete Supplemental Schedule to Schedule B-2 before completing Schedule B-2. A detailed guideline for Schedule B-2 preparation is as follows:

Column 2 - The amounts in Column 5 of the Supplemental Schedule to Schedule B-2 should be recorded in this column.

Column 3 - Enter in Column 3 "New Capital Costs" allocated to the NF or ICF-MR as shown on Medicare Worksheet B, Part II, for the appropriate cost centers. This allocated amount should be inserted in Column 3, Line 37. Adding (deducting) Column 3 from Column 2 will remove depreciation from individual cost centers and reflect all property depreciation in the property and related cost center in Column 4.

Column 4 - For all line items except Line 37, Column 4 is completed by subtracting depreciation expense from total NF or ICF-MR expenses (Column 2 minus the sum of Column 4). Line 37, Column 4 is completed by adding amounts in Columns 2 and 3.

Columns 5, 6, and 7 - Enter in Column 5 adjustments to expenses made on Schedule B-4. See instructions to Schedule B-4 for types of adjustments needed. Enter in Column 6 adjustments to expenses as a result of final settled Medicare cost reports as calculated on Schedule B-5. See instructions for Schedule B-5. Column 7 is completed by adding or subtracting the adjustment to expenses shown in Columns 5 and 6 from total NF or ICF-MR expenses (Column 4 plus or minus Columns 5 and 6). Please note that "Employee Health and Welfare" should be included in the routine service cost center; however, if actual cost center salary expenses can be determined and properly documented, the employee benefits costs must also be distributed to the cost centers. Submit a supplementary schedule showing these distributions.

SCHEDULE B-2A

The purpose of Schedule B-2A is to detail all Property and Related Expenses claimed on Schedule B-2, column 2, line 39. Costs identified on Schedule B-2A should include direct depreciation, property taxes, property insurance, equipment leases, and capital-related interest expenses. Using CMS Form 2552 and the Supplemental Schedule to B-2, property costs included in column 2 can be traced to direct and/or Medicare step-down costs from the hospital.

SCHEDULE B-3

This schedule should be utilized only if applicable amounts specifically related to the hospital-based NF or ICF-MR facility have not been included in Schedules B-1 or B-2.

SCHEDULE B-3A - NURSE AIDE TRAINING AND TESTING

Report all costs incurred for nurse aide training and testing on Schedule B-3A. The amount shown for costs may, or may not, be the same as revenue received. Do not report revenue received on this schedule. Only actual verifiable costs should be reported on schedule B-3A. These costs must meet the criteria established by DCH's Uniform Chart of Accounts manual. The total amount of this schedule should be transferred to Line 31, Column 2 of Schedule B-2. In addition, there will be a final audit settlement made after actual expenses incurred are reviewed against reimbursement received from DCH. Therefore, all nurse aide training costs incurred should be adjusted out of Schedule B-2, Line 31, Column 6 via a B-4 adjustment.

SCHEDULE B-3B - VENTILATOR SERVICES PROGRAM COSTS SUMMARY

Report all costs incurred for the Ventilator Services Program on Schedule B-3B. An adjustment should be made to remove both total direct and indirect costs specifically associated with ventilation services from the cost report. Note that some costs may be already removed as part of adjustments through Schedule B-5 – Allocation of Indirect Expenses to Non-Patient Care Areas as a result of separate Ventilator Services Unit.

Ventilator services patient days should be recorded by form of payment (Medicare, Medicaid (FFS), or Private and Other) and by whether or not the patient is on-site or on a hospital/leave days stay (Hospital/Leave days for Medicaid recipients should only include those days reimbursable under the Medicaid Program). A patient day is the care of one patient during the period between the census-taking hour of two successive days. When a patient is admitted and discharged on the same day, this must be counted as one inpatient day.

SCHEDULE B-4

Substantially all adjustments will have been reflected in Medicare Worksheet A. This schedule will normally be used on a limited basis to reflect adjustments specifically required by the Medicaid program, such as those that may result from the specific guideline depreciable lives set forth by American Hospital Association (AHA). Please include prior year audit adjustments which offset current year cost. Any adjustments required should be listed and then reflected in Column 3 or 6 of Schedule B-2. Note that any additional adjustment would have to be an amount applicable to the NF or ICF-MR only, and not to the total hospital.

On June 6, 1990, the Board of Medical Assistance voted to disallow certain costs. Please refer to Chapter 1000 of the nursing home policies and procedures manual for specifics regarding these costs. Some of the non-allowable costs include lobbying expenses, memberships in civic organizations, certain out-of-state travel and certain vehicle depreciation and air transportation. In addition, 50% of membership association dues, certain legal fees and various advertising costs are non-allowable. Any of these costs included on the cost report should be adjusted out by a B-4 adjustment. If adjustments to allowable costs were made in connection with a recent Medicare audit, Schedule B-5 should be prepared. Any adjustment should be reflected directly on Schedule B-2.

If the hospital provides ancillary services to nursing home patients, the total cost of providing those services to all of the nursing home patients (as shown on form CMS 2552, Worksheet D-8, Part IV) should be shown as an adjustment to the nursing home's costs where these costs are not already included in the nursing home's direct costs where these costs are not already included in the nursing home's direct costs (as shown on Form CMS 2552, Worksheet A). These costs should also be included on Schedule B-1A.

SCHEDULE B-5 (Note that this schedule does not have to be prepared if there are no non-patient care areas or therapy rooms).

For purposes of completing Schedule B-5, non-patient care area is defined as - any area of the facility that is used for activities that are either not covered by the Medicaid program or that the provider receives compensation solely from a third party payer, such as Medicare.

The purpose of Schedule B-5 is to isolate indirect expenses included in patient care cost centers related to non-patient care and therapy activities. Such Non-patient care activity expenses are not allowable costs for Medicaid reimbursement purposes and should be removed from the patient care cost centers. Examples of non-patient care areas are included in Schedule B-5. The non-Medicaid utilization portion of indirect expenses related to therapy activities is calculated on Schedule B-1A, using the amounts calculated on Schedule B-5. These amounts should also be removed from the patient care cost centers.

Detail instructions for the allocation of indirect expenses to non-patient care and therapy areas are as follows:

Line 1 - Insert the total expenses, as adjusted, before allocation of indirect expenses for the cost centers from Schedule B-2. This amount will be used as the expense allocation basis in lines 2 through 13 below.

Line 2 through 13- Certain common non-patient care areas have been listed. This list is not all inclusive and space has been provided (Lines 5 through 11) to list any such areas peculiar to particular provider. Column 1 requires that the square feet of each non-patient care area and the patient care (in total) be listed so as to compute each area's percentage (%) relationship to the total. As an example:

Square Feet/
% of Total

Rental (Sub-Lease)	100	5%
Gift Shop	<u>100</u>	<u>5</u>
Non-Patient Care	200	10
Therapy Room	200	10
Patient Care	<u>1,600</u>	<u>80</u>
Total	2,000	100
	=====	=====

Based on the above, 5% of each cost center's total adjusted costs would be allocated to each of the non-patient care areas and 10% to the therapy room. The total allocated to each cost center for non-patient care areas (Line 12) would be transferred to Schedule B-2 as an adjustment to allowable costs. The total allocated to each cost center for the therapy room (line12a) should be transferred to Schedule B-1A to calculate the non-Medicaid utilization portion of the cost. Column 1a requires that pounds-of-laundry used in each non-patient care area and in the patient care area (in total) be listed so as to compute each area's percentage (%) relationship to the total. If pounds-of-laundry is used as an allocation statistic, at

least 3 months of documented usage during the cost reporting period must have been obtained. The use of pounds-of-laundry is optional and can only be used for the distribution of Laundry costs. Square feet will be used when pounds-of-laundry is not selected.

Line 14 - Sum of Lines 12 and 13. The total amount allocated (Line 14) should agree with total expenses, as adjusted (Line 1).

Note that Schedule B-5 isolates only indirect expenses related to non-patient care and therapy activities. Any direct expenses (salary, supplies, etc.) applicable to such non-patient care activities should be (1) reflected on Schedule B-3, Part II, and thereby not require any adjustment because the amounts on Schedule B-3 are not included in allowable costs, or (2) listed as separate adjustments on Schedule B-4.

SCHEDULE B-6

The purpose of Schedule B-6 is to list all contractual services provided only to the NF or ICF-MR facility by non-related parties for amounts of \$100 or more per month, or \$1200 or more per annum. In addition, ownership equity information for listed entities with less than five owners should be provided. This schedule should include all such services covered by contractual agreement, written or oral, such as management services, medical or pharmaceutical services, therapists, dieticians, maintenance or laundry services, catering services, etc. Supplying of products such as raw food, office supplies, etc. should not be included. Only one service should be listed on each line. If additional lines are required, submit that information on additional copies of Schedule B-6.

SCHEDULE B-7

The purpose of Schedule B-7 is to compare the final settled Medicare cost report to the Medicare cost report utilized in preparing previously filed Medicaid cost reports. As these Medicare cost reports are settled, with the Medicare intermediary, Schedule B-7 should be completed for each "Final Settled Medicare Cost Report" since the last Medicaid cost report was filed. A detailed guideline for the Schedule B-7 preparation is as follows:

Column 2 - The purpose of Column 2 of schedule B-7 is to accumulate the final "as adjusted" costs

of the hospital based NF or ICF-MR from the final settled Medicare cost report. These costs are obtained from the appropriate NF/ICF-MR line(s) of the final settled Medicare cost report, Worksheet B, Part I.

Column 3 - The purpose of Column 3 of Schedule B-7 is to report the depreciation expense of the hospital-based NF or ICF-MR from the final settled Medicare cost report. These costs are obtained from the appropriate NF/ICF-MR line(s) of the final settled Medicare cost report, Worksheet B, Parts II and III.

Column 4 - Column 4 is obtained by subtracting Column 3 from Column 2.

Column 5 - For Medicaid cost reports affected by final settled Medicare cost reports since the last Medicaid cost report was filed, enter the amounts relating to the NF or ICF-MR, as they originally were shown on Medicaid Worksheet B-2 for that year, in this column. In effect, copy Medicaid Worksheet B-2, column 5 for the year settled.

Column 6 - Column 6 is obtained by subtracting Column 5 from Column 4. These amounts are the effect of Medicare audit adjustments relating to the NF or ICF-MR and are transferred to Schedule B-2, Column 7.

SCHEDULE B-7/A

The purpose of this schedule is to allocate certain items grouped within Medicare Worksheet B of Form 2552 to the appropriate cost centers for Medicaid Schedule B-5. This will facilitate the completion of Medicaid Worksheet B-5, for previously filed Medicare cost reports, using Form 2552 final settled since the last Medicaid report was filed.

Column 2 - Enter amounts from Medicare Worksheet B, line 34 Form 2552 on the applicable line of this schedule.

Column 4 - Amounts should be allocated to the cost centers indicated in a manner similar to the original filing. The amounts should then be transferred to the applicable line on Medicaid Worksheet B-7.

The following is a suggested guideline for entering information from Medicare Worksheet B to Schedule B-7/A, Column 4:

<u>Worksheet B Description</u> (Form 2552)	<u>Schedule B-7</u> <u>Cost Center</u>	<u>Line #</u>
Net direct expenses from Worksheet A	Routine Services	1
<p>Depreciation, Operation and Maintenance of Plant and Housekeeping-a separate allocation of this total amount allocated to the NF will have to be made, based on portion of total original amounts, as follows:</p>		
Depreciation	Property and Related	39
Operation and Maintenance of Plant	Operation and Maintenance of Plant	22
Housekeeping	Laundry and Housekeeping	17
Employee Health and Welfare	Administration and General	31
Dietary and Cafeteria	Dietary	12
Nursing and Intern-Resident Services	Routine Services	5
<p>Other General Service Cost Centers-a separate allocation of this total amount allocated to the NF will have to be made, based on portion of total original amounts as follows: (*)</p>		
Laundry and Linen	Laundry and Housekeeping	17
Pharmacy	Special Services	9
Social Services	Special Services	7
All Other	Administration and General	29

(*) The allocations required for a break out to the appropriate cost center category should be made on a separate schedule and attached to Medicare Worksheet B. As an example,

the allocation of depreciation, operation and maintenance of plant and housekeeping should be made as follows:

	Total For Hospital And NF (Per Column 7 of <u>Medicare Worksheet A</u>)	<u>%</u>	<u>Allocation to NF</u>
Depreciation-Buildings and Fixtures	\$10,000		
Depreciation-Movable Equipment	<u>5,000</u>		
	\$15,000	25%	\$1,500
Operation and Maintenance of Plant	15,000	25%	1,500
Housekeeping	<u>30,000</u>	<u>50%</u>	<u>3,000</u>
Total for Hospital and NF per Worksheet A	<u>\$60,000</u> =====	<u>100%</u> =====	
Total allocated to NF per Worksheet B			<u>\$6,000</u> =====

Note that a complete description is required of any amounts entered where blank lines are available for such descriptions.

SCHEDULE H

All related party transactions listed in Medicare Worksheet A-8-1 must be considered in Schedule H.

A related party may be a corporation, partnership, or individual. (Refer to Chapter 10 of CMS-15 for an explanation of what constitutes a related party, and how this can affect reimbursable costs.) In general related to the provider means that the provider, to a significant extent, is associated or affiliated with, or has control of, or is controlled by, the organization furnishing the services, facilities, supplies, etc. Further, costs applicable to services, facilities, and supplies furnished to the provider, by organizations related to the provider through common ownership or control, are includable in the allowable cost of the provider, at the cost to the related party. Such costs must not exceed the price of comparable services, facilities, or supplies that could be purchased elsewhere. Where the cost of a related party is included in allowable cost, supporting financial statements of the related organization and calculations supporting the related party cost, for the cost report period must be furnished.

However, as stated in CMS-15, and the policies and procedures manual by reference, payments to related parties operating on an arms length basis would be included in allowable costs on the basis of charges. Refer to Section 1010 of CMS-15 for further details on this exception to related party principle.

The following instructions indicate what is required to be included in Schedule H for related party transactions:
